“Cone Zone” tip for the week:

Did you know that you lose only 10 seconds when you slow down from 65 mph to 55 mph for a whole mile? Next time you’re traveling in a highway work zone, remember – slow down – your life or the life of another may depend on it!

The information will be sent prior to the week the work takes place. This “Alert” will be updated if new information is available or changes. If you are interested in signing up for email distribution of alerts, please email your request to Public Affairs on our website at www.caltrans8.info or call us toll free at (866) 383-4631.
